-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because 1) the abstract exceeds 150-words and 2) the phrase "Disclosed herein is..." can be implied. Correction is required. See MPEP § 608.01(b).

Drawings

3. Figures 5 and 6 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the

applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

4. Claims 1-7 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest an adapter for a three-dimensional moving image photographing device that includes a lens unit comprising an entrance lens part and an exit lens part, each of the entrance and exit lens parts including release lenses, the release lenses of the entrance and exit lens parts being disposed in the middle of the lens unit, the entrance and exit lens parts being arranged symmetrically to each other in a line so that a moving image passing through the entrance lens part is reversed at a magnification of 1:1 to leave the exit lens part, the lens unit being disposed in front of the photographing lens and having an entrance pupil point of the entrance lens part formed outside the entrance lens part.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Gibson (US 4,295,153), Silverstein (US 7,061,532), Ogino (US 2001/0019450), Sugawara (US 6,414,791), Fujiwara (US 2002/0009300) and Bielusici (US 3,551,036) each disclose an adapter housing disposed in front of a lens unit for alternately passing right and left moving images of an object having been introduced along second and third light axes therethrough so that the right and left moving images of the object enters the lens unit along a light axis of the photographing lens, the second and third light axes being spaced at prescribed distances from the light axis of the photographing lens in the right and left directions, respectively.

7. This application is in condition for allowance except for the following formal matters:

Objections to the Specification and Drawings as noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney E. Fuller whose telephone number is 571-272-2118. The examiner can normally be reached on 8:00am - 4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Diane Lee can be reached on 571-272-2399. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
